

Adam Alexander

Front-End Web Developer

botch53@gmail.com • botchthecrab.com • 718-757-6313

SUMMARY

I view front-end web development the same as music composition: mixing craft and inspiration to convey an experience that is appealing and effective.

I'm a strong advocate for the user experience and efficient coding practices.

SKILLS

Fluent in ...

Semantic HTML/HTML5

JavaScript / jQuery / AngularJS / Vue

Music (from Slayer to George Michael), Transformers, religion, comic books.

EXPERIENCE

NurseGrid 12/2017 - present

Lead Front End Engineer

Primary developer for NurseGrid Manager, a web-based nurse staffing and scheduling tool.

Participates in UX design, code review, and advocates for process enhancements.

Aerohive Networks 1/2017 - 12/2017

Staff Engineer, Front End Developer

Maintenance and feature development for HiveManager NG (networking management portal).

Refactoring of legacy CSS into modularized SASS.

CollegeNET, Inc. 11/2007 - 3/2016

Sr. Software Developer

Designed and developed 25Live, a collegiate scheduling application, and corresponding administration sites.

Built a fully responsive version of 25Live in AngularJS.

Notable interfaces included multi-week location availability grids, resource utilization graphs, and scheduling wizards.

Oddcast, Inc. 8/2005 - 5/2007

Front-End Web Developer

Fully recoded SitePal.com and Oddcast.com, improving load time by 50%.

Built JavaScript-driven Flash embed code wizard.

SureID, Inc. 3/2016 - 12/2016

Nike, Inc. 8/2007 - 10/2007 (contract)

Lockwood Advisors, Inc. 8/2005 (contract)

Tutor.com 1/2005 - 3/2005 (contract)

Cablevision Systems Corp. 1/2000 - 12/2004
