SUMMARY

I've been a long-time front-end developer, team leader, and active participant in the creation, refinement, and execution of customer-facing products.

I enjoy working on applications that make a difference in everyday people's lives. I'm want to grow my skillset and challenge myself.

SKILLS

Fluent in ...

TypeScript / JavaScript
Angular / AngularJS / Vue
Cross-language Code Review
Agile / Scrum Methodology
Azure DevOps / Jira
Product Mapping & Story-Writing
API Contract Design
Release Management
Graphic Design

Excellent communication skills!

INTERESTS

Musician (metal, progressive), vintage toys (mostly Transformers), thoughtful discussion.

EXPERIENCE

HealthStream (NurseGrid) 12/2017 - present

Managing Developer / Front End Team Lead

Manages a team of web and mobile developers across multiple applications. Mentors others in coding best practices.

Participates in UX design review, story refinement, and code review. Leads scrum ceremonies. Actively participant in process discussions and refinements.

Has driven major projects from early wireframing and prototyping through iterative execution and delivery.

Aerohive Networks 1/2017 - 12/2017

Staff Engineer, Front End Developer

Maintenance and feature development for HiveManager NG (networking management portal).

Refactoring of legacy CSS into modularized SASS.

CollegeNET, Inc. 11/2007 – 3/2016

Sr. Software Developer

Designed and developed 25Live, a collegiate scheduling application, and corresponding administration sites.

Built a fully responsive version of 25Live in AngularJS.

Designed interfaces for multi-week space availability grids, resource utilization graphs, and scheduling wizards.

And others including ...

SureID, Inc. 3/2016 - 12/2016

Nike, Inc. 8/2007 - 10/2007 (contract)

Oddcast, Inc. 8/2005 - 5/2007

Cablevision Systems Corp. 1/2000 - 12/2004
